Look Around

With the mouse you are able to look around you. Just move the mouse on the desire direction

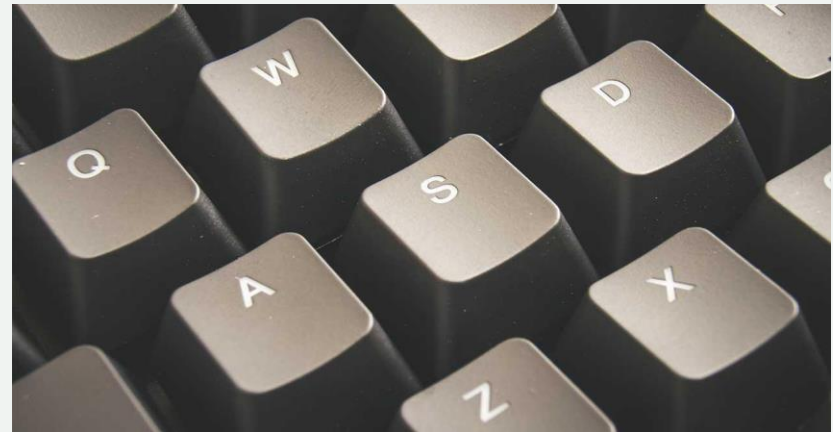

Example

To move

With the keys W, A, S and D you can move around the stage.

With W you will move forward, with A to the left, with d to the right and with S backward.

Note: Be careful, since when you move backwards or forwards, you will do so taking into account where you are looking

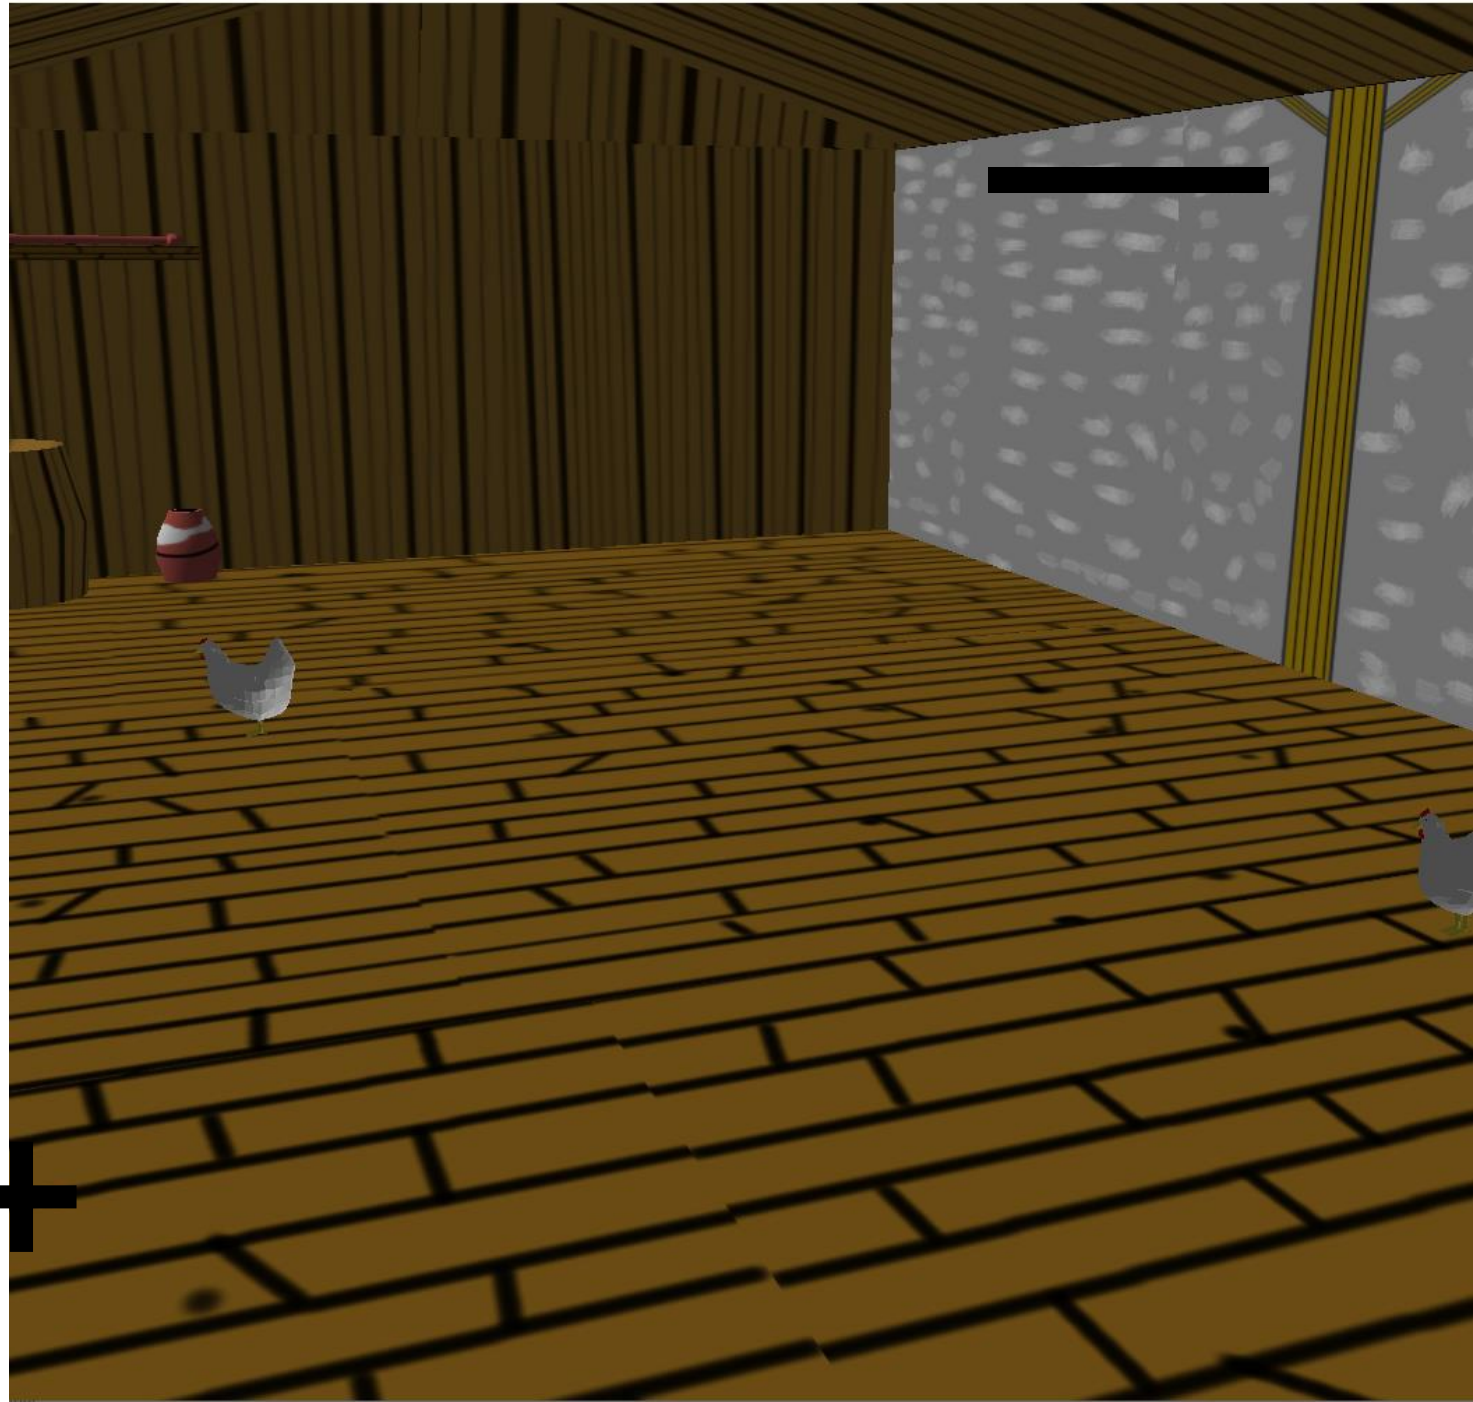

At the beggining you found out the
next scenario

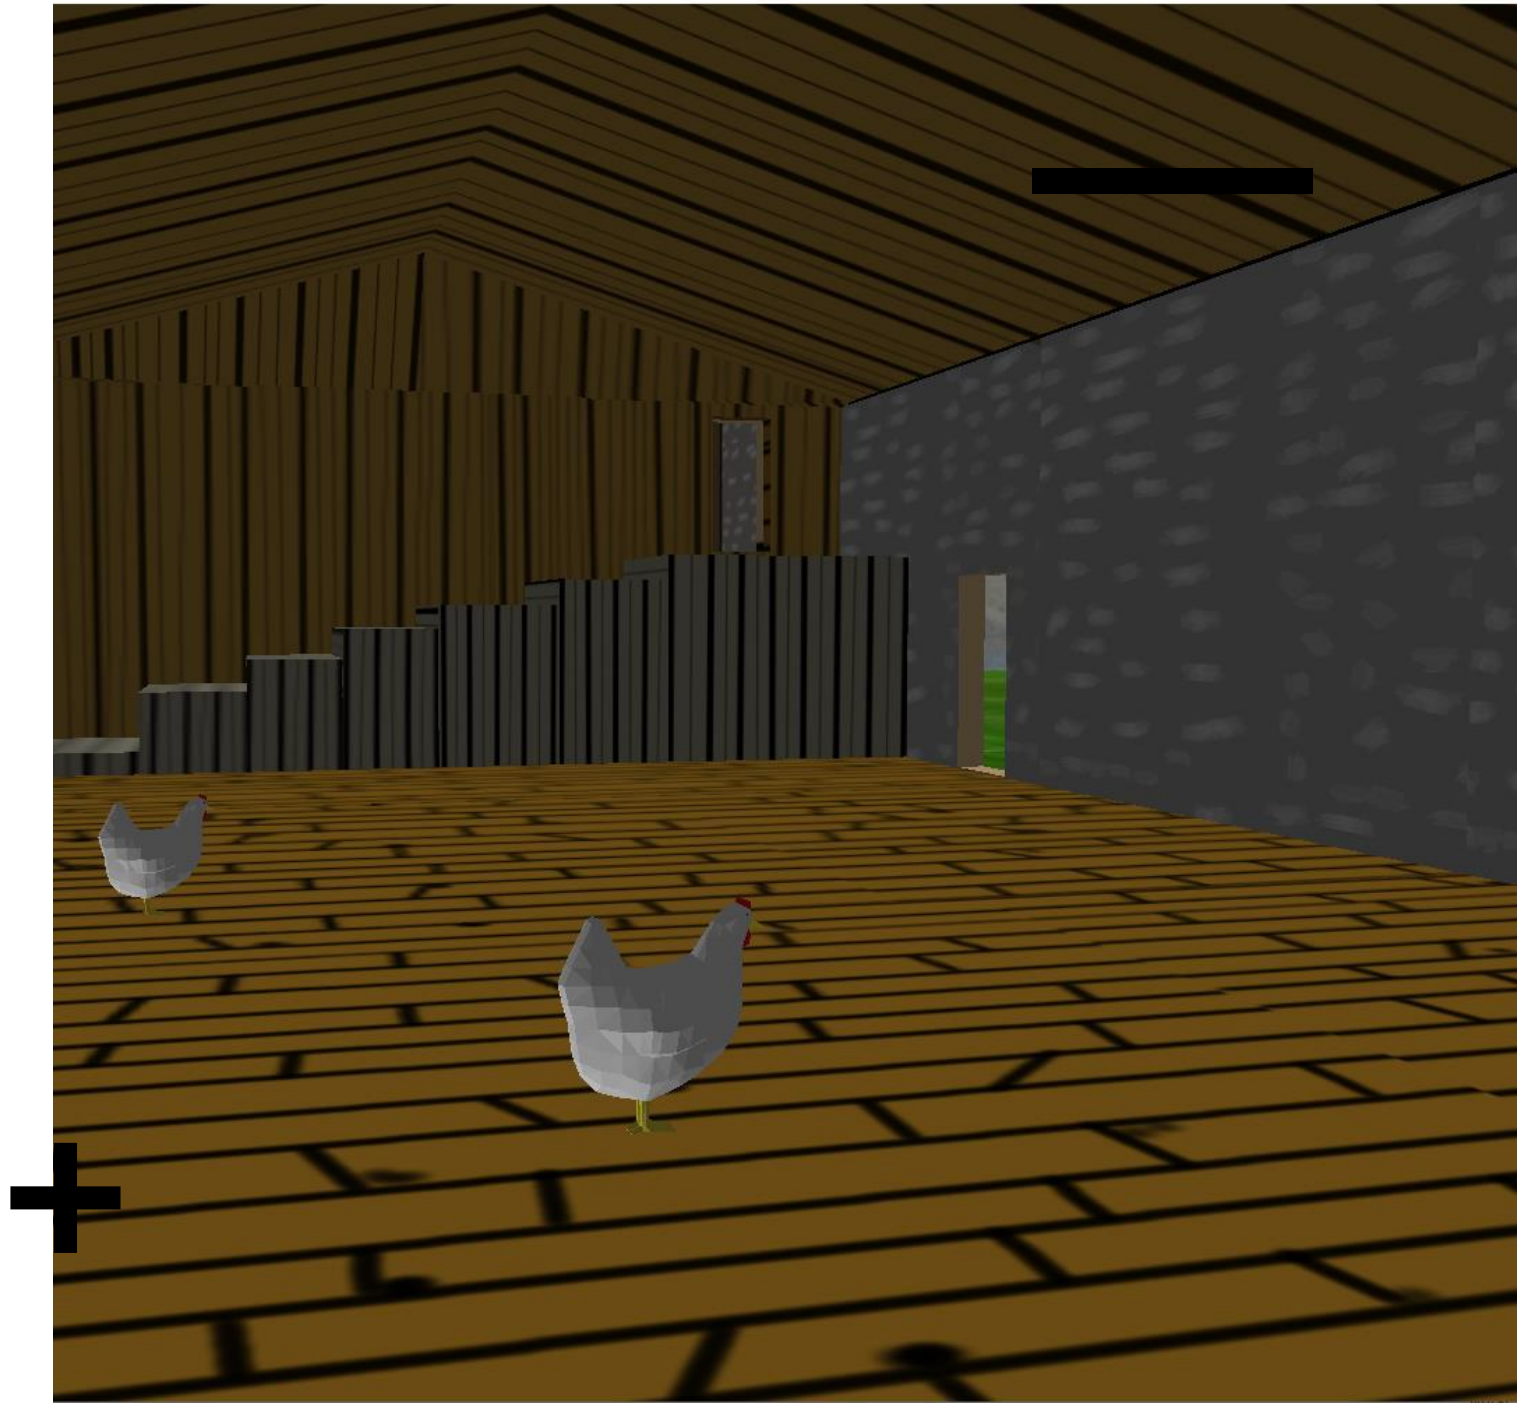

First Room

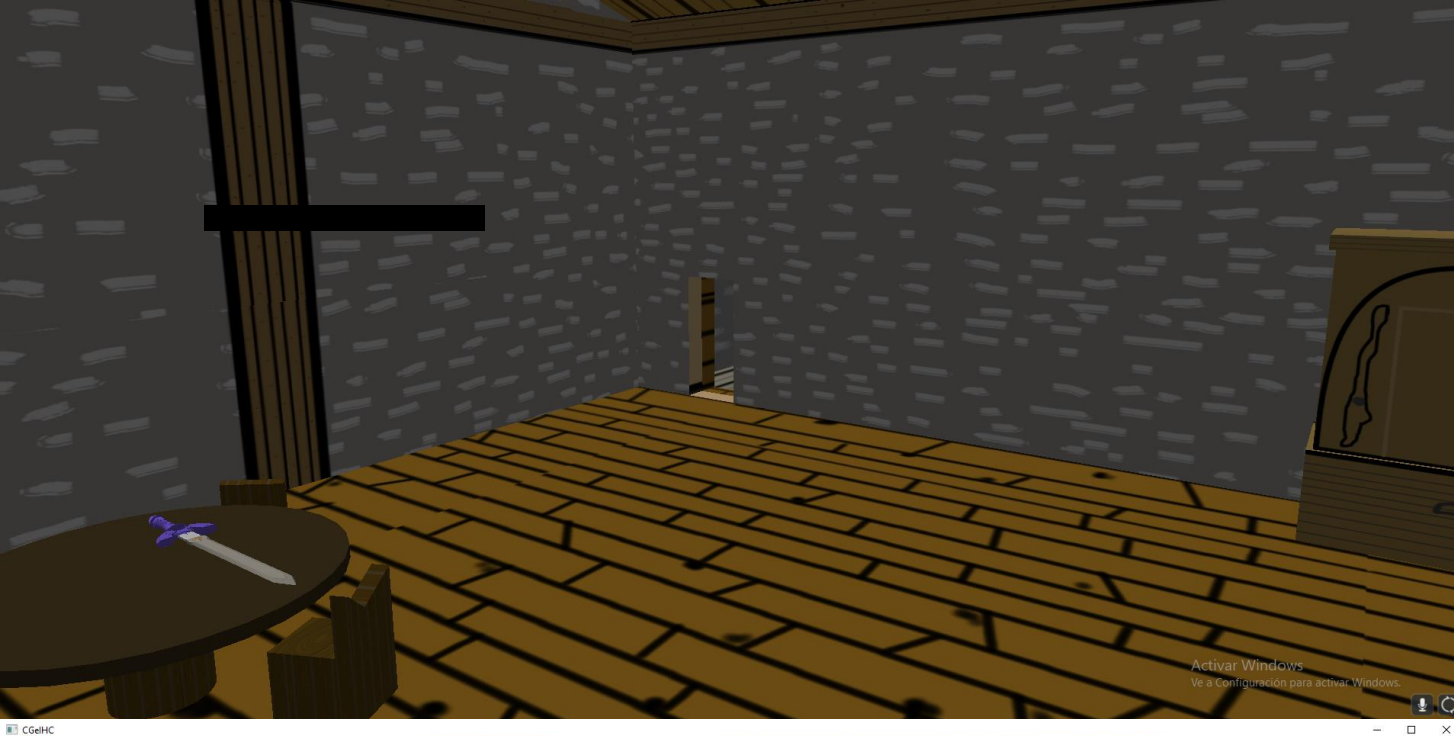

This first room will have a hen that is constantly pacing back and forth, a shocked hen, a barrel, a vase, a shelf, and a shovel on top of the shelf.

First Room

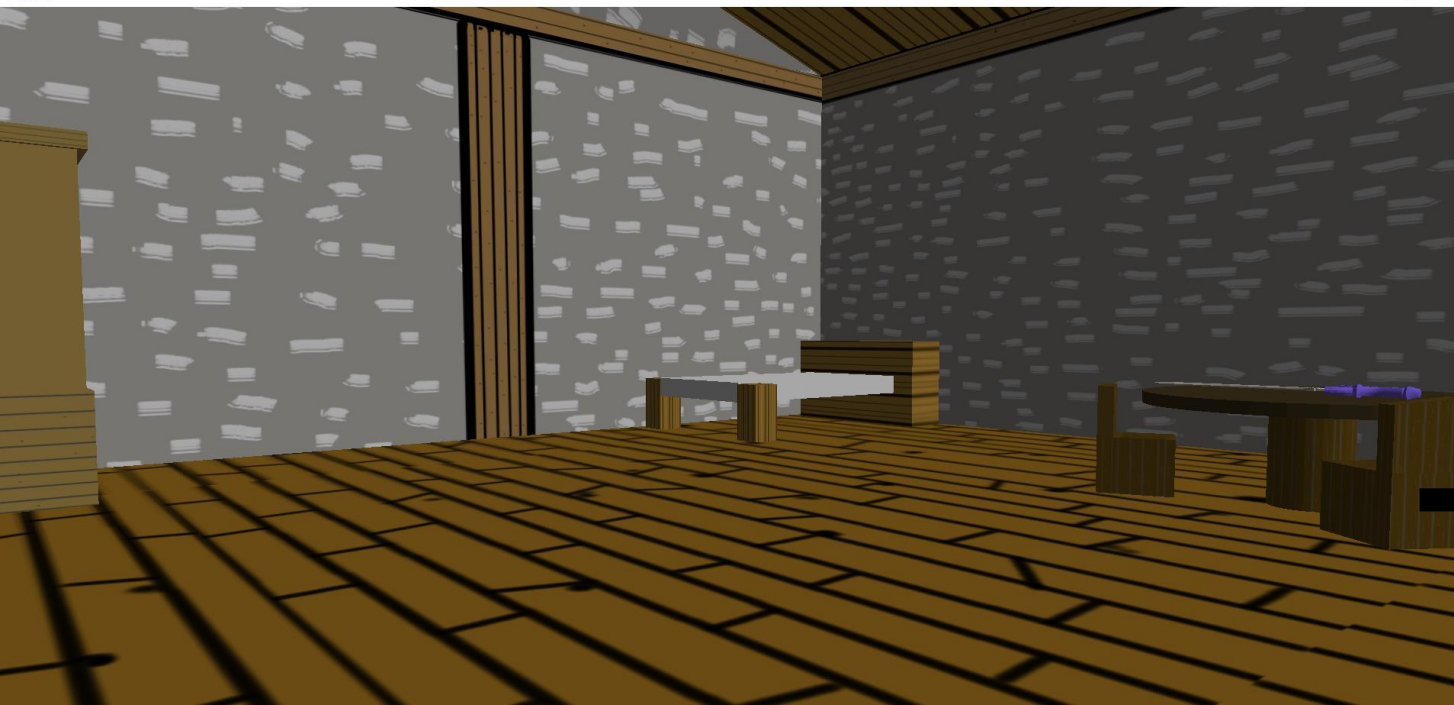

You will also find the stairs that will take you to the second room

Second Room

Going up the stairs, there will be an alcove with a bed, a closet, a table, chairs, and the master sword on the table.

Outside House

Outside the house, in the back you can find a Gold Gold Skulltula spider, which has cursed a family and in the game you have to destroy them to free this family from their curse

Thanks for watch

That has been all that is necessary for you to walk through the virtual environment, thank you very much for your visit to the Lon Lon ranch
